PROCEEDINGS AND DEBATES OF THE 112th CONGRESS, FIRST SESSION

Vol. 157

WASHINGTON, WEDNESDAY, JULY 13, 2011

No. 104

House of Representatives

The House met at 10 a.m. and was called to order by the Speaker pro tempore (Mrs. ELLMERS).

DESIGNATION OF SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC,
July 13, 2011.

I hereby appoint the Honorable RENEE L. ELLMERS to act as Speaker pro tempore on this day.

JOHN A. BOEHNER,
Speaker of the House of Representatives.

MORNING-HOUR DEBATE

The SPEAKER pro tempore. Pursuant to the order of the House of January 5, 2011, the Chair will now recognize Members from lists submitted by the majority and minority leaders for morning-hour debate.

The Chair will alternate recognition between the parties, with each party limited to 1 hour and each Member other than the majority and minority leaders and the minority whip limited to 5 minutes each, but in no event shall debate continue beyond 11:50 a.m.

STOP PLAYING POLITICAL GAMES WITH SOCIAL SECURITY

The SPEAKER pro tempore. The Chair recognizes the gentleman from Ohio (Mr. KUCINICH) for 5 minutes.

Mr. KUCINICH. Madam Speaker, 3 months ago, 276 experts on Social Security, the Federal budget or the economy wrote to President Obama "to correct a commonly held misconception that Social Security somehow contributes to the Federal Government's deficit."

Despite the fact that Social Security has a \$2.6 trillion surplus and can pay 100 percent of its benefits through 2037

without any cuts or tax increases, President Obama declared yesterday that Social Security checks may not go out after August 2, presumably unless there is a deal on the Federal deficit, which has nothing to do with Social Security.

According to today's Washington Post, 15 years ago, Congress passed laws which stated Social Security did not count against the debt limit and gave Treasury clear authority to use Social Security trust funds to pay benefits and administration expenses in the event a debt ceiling is reached.

A fake Social Security crisis will do nothing to solve a real debt crisis, will undermine the public's faith in government, and will create unnecessary anxiety among our elderly. Stop playing political games with Social Security.

THE WILL TO GET AMERICAN JOBS MOVING AGAIN

The SPEAKER pro tempore. The Chair recognizes the gentleman from California (Mr. DENHAM) for 5 minutes.

Mr. DENHAM. Madam Speaker, with the June national unemployment rate at 9.2 percent and with consistent double-digit unemployment in my district, we must get Americans back to work. June marks 29 consecutive months in which we've had unemployment at or above 8 percent, averaging 9.5 percent during that time. Unemployment hasn't been above 8 percent for that length of time since the Great Depression.

We've got to start utilizing the policies that will get Americans back to work. We need to make sure that we are reducing the regulations and are having the economic policies that get Americans willing to take the risk: the risk to go out and borrow money to start a business, willing to take the risk to not only hire employees but to actually make sure that they're willing to have that long-term employment,

making sure that they've got the promise to those employees that they're going to be able to continue on those jobs. We've got to give Americans the opportunity to take that great risk in our economy.

We also need to unleash the strength of our Nation by utilizing our natural resources. The greatest opportunity we have as a Nation to get Americans back to work is by utilizing our own natural resources. In my area, where we've got double-digit unemployment, we've got a water shortage that causes our agriculture to leave land fallow, leaving thousands unemployed. By getting the water flowing again, we will not only get agriculture moving again but the local economies as well.

The mountain areas with timber, if we don't use the natural resources that we have in our forests, if we don't manage our timber harvesting plans, not only will we see the lack of employment opportunities, but we'll see devastation and we'll see fires, because the forests will manage themselves if we don't manage the forests for them.

We need to make sure that we're looking across the Nation at our oil reserves. Between our oil, our natural gas, our oil shale reserves, we have the largest resources in the world. We've just got to be willing to tap into them. We need to shorten the time on permits. We need to reduce the regulations so we can actually go in and get the oil so that we're not dependent on other nations.

These aren't Republican jobs. These aren't Democrat jobs. These are American jobs for which we've got to be willing to go out and stand strong on cutting the regulation, on getting the right economic policies, on getting the permits moving again so that we can actually utilize our natural gas, utilize our oil, utilize our oil shale so that we're not relying on other nations, utilize our timber harvesting plans so that we don't see the devastation when
